## **Celestial Church of Christ, World Wide** **REUNITING CELESTIAL CHURCH OF CHRIST**

I bring you greetings in the name of our Lord Jesus Christ. And I thank my God for every remembrance of you for your fellowship in the gospel, your works and your love for the flock of God; from the beginning till now being confident of one thing that he who started a good work in you will perfect it until the day of our Lord Amen. Celestial Church of Christ is 63 years on earth; let us take a look at the state of the church with a view to getting ready to make sacrifices.

With undeceived mind and stern eyes let us inspect our conscience putting our greedy appetite to sleep; so that we can frankly ask ourselves the question HOW WOULD YOU WANT TO BE REMEMBERED when you leave this earth, to the great beyond? What role are you playing today for the records of tomorrow, what is your contributions to the fractionized Celestial Church of Christ, are you helping to build, or pull down completely, are you ready to lay down your all, to see the church come together as one body, or you only wish the church come under an umbrella but not ready to make any sacrifice. What step have you moved? The storm is in the horizon and the fall can only be imagined if nothing is done urgently to reverse the situation. You must wake-up and be a part of this crusade. This call should not be hurriedly understood to be one of those sermons, fake prophesies or yet another faction of Celestial Church of Christ but in a more personal sense, we must ask ourselves to whom are we accountable to as individuals? How willing are we to share our dreams with others who would hold us responsible if we fail to actualize them, as spiritual leaders, parents and teachers how many of those we lead can define our ideals, thereby making it possible for them to assess us in due time? Or is there any pathway to enduring legacies, if we are not willing to exploit the power of fulfilled promises?

A thorough assessment of the church has shown that there is nothing unusual happening to the church; contrary to what many believe that Satan has taken over the church or that the leaders are greedy for money or power. I do not agree with this; the simple truth is that we find ourselves in one big church with a very little constitution... For a church that will cleanse the world, the same must spread all over the world; this means that the present size of the church is an insignificant fraction of what is to come. Therefore, you and I have the duty to write our names in gold if we offer ourselves to God to be used to restructure, reunite and reposition the church.

Most of us believe that objective truth is not just a set of facts but a BEING who not only personifies truth but also life, love and sovereignty. So accountability to such a BEING can be expressed by accountability to fellow human being whom we relate with daily. We should never claim accountability to God when there is no one on earth who can serve as a check on our imperfections as mortals.

Then we must of necessity heed this clarion call to make indelible mark in the sand of time. There is no need to doubt in the dark when God has spoken in the light. This is an errand from God, so it does not matter whom the author is; like I said earlier, it is not another faction; it is just time to lay down your arms, and keep that which God has committed to your trust. The war is over. The Lord of the vineyard is come. We must come together as a family and right the wrongs, the best you can give to God your creator is to make it a point of duty to ensure that Celestial Church of Christ reunites before you return to him.

We are not bigger or older as a church than the Catholic, Anglican, Baptist, Christ Apostolic etc.; we have the capacity to entertain more offices than the number of people jesting to be Pastors, if the organogram is put right. We stand to be

stronger, happier and closer to God if we stand as one. What therefore is the struggle, the division and factionalization all about?

God does not want us to celebrate another anniversary in this crisis. We are going to make the move and let God come in and finalize it. I therefore extend to you an olive branch, by inviting you to a round table where you can say what you stand for, your wishes, your dreams and your aspirations. We can harmonize our positions and move forward as one big family. You are therefore requested to appoint seven intelligent men/women with the fear of God to represent what you stand for in the series of meetings that will usher in one indivisible Celestial Church of Christ.

An international reconciliation and restructuring committee shall be constituted from these seven members from all faction and interest group within the Celestial fold worldwide. Their duties shall include, meeting to deliberate and pray, make recommendations and come out with a blue print, which shall serve as a document of everlasting peace and harmony for the church. We therefore urge you with the love of God to shun positions, ranks or wealth in selecting these seven people.

This is a seed planted by the fingers of God, it will surely flourish, we encourage you to be a part of this great mission with all that God has given you in spiritual power, wisdom, fame, wealth etc to see it succeed.

We look forward to one glorious day when all the leaders of Celestial Church of Christ Worldwide will meet and embrace each other in true happiness and love, forgiving each other and joining hands to fly the flag of the Church Worldwide and this day must be in your life time.

We need a secretariat, men and women with proven integrity who believe in this noble dream to join us and every other encouragement both spiritually, financially and otherwise to see us through. May the grace, peace and love of our God be with you?
